At Bicycle Tours of Atlanta, we are fiercely committed to bicycle safety. Whether you are taking one of our tours or venturing out on your own, we want to do everything we can to help keep you safe while riding with motorists on the roadways.

Through our association with the League of American Bicyclists we offer an array of education programs that will increase knowledge, skills and confidence for cyclists of all ages and skill sets. All of our lead instructors are League Cycling Instructors (LCIs) and are experts in bicycle education and safety.

We develop programs for neighborhood associations, churches, businesses, social and civic organizations. We also customize single programs or combinations to be delivered in one day or over a number of weekends. Your organization can take the course at our facility in Atlanta or we can bring the program to your location anywhere within Metro Atlanta.

Course Offerings

Cycling Skills Clinic - This two-hour course is designed to teach beginner cyclists the importance of seeing, being seen and remaining in control at all times when riding a bike. This is achieved through a series of bike handling drills and the simulation of traffic situations.

Additional course instruction focuses on helmet usage, basic safety techniques, laws and regulations. We conclude the clinic with a neighborhood group ride with participants, parents and neighbors.

Cycling Skills for Parents - In this 90-minute course designed for parents, instructors share great techniques for teaching children how to ride a bike as well as how to perform a bicycle safety check, helmet fitting and bike sizing. The course includes a 10-minute 'Kids Eye View' video and a brochure for parents. This course also introduces parents to the concepts of vehicular cycling, which is the foundation of safe cycling protocol.

Traffic Skills 101 - This nine-hour class can be delivered in two or three sessions. This class gives cyclists the confidence they need to ride safely and legally in traffic or on a trail. The course covers bicycle safety checks, fixing a flat, on-bike skills and crash avoidance techniques and includes a student manual. Recommended for adults and children above age fourteen, this fast-paced course prepares cyclists for a full understanding of vehicular cycling. We conclude this course with a group ride on secondary roadways.

Commuting - Designed for adult cyclists who wish to explore the possibility of commuting to work or school by bike, this three hour follow-up to Traffic Skills 101 covers topics including route selection, bicycle choice, dealing with cargo and clothing, bike parking, lighting, reflection and foul weather riding. Included with the class are handouts and a student manual.

More Information

Hello and thank you for visiting our site today. We are thrilled to be the first bicycle touring company in Atlanta. At Bicycle Tours of Atlanta, we believe that spending time on a bike is one of the great simple pleasures in life. It brings out the kid in all of us and it's darn right smart! Peddling through one of our intown neighborhoods or city streets gives you an opportunity to truly see what this great city has to offer. Not to mention the added benefit of making an impact on the environment and your health.

If you are planning to be in Atlanta for a visit or if you are planning an event for your company or client, please let us introduce you to our great city on two wheels. We are offering customized tours this fall and will offer regularly scheduled tours beginning in the Spring of 2009.

I look forward to hearing from you soon!

Thank you,
